**NORRIS LITHIUM FIELD CREWS MOBILIZED TO HIGHWAY AND BUS PROJECTS IN
JAMES BAY, QUEBEC**

VANCOUVER, BRITISH COLUMBIA, AUGUST 23, 2023– **Norris Lithium Inc.** (the “**Company**” or “**Norris**”) (CSE: “**CHCK**”) is pleased to announce the resumption of its exploration activities at the Highway and Bus Lithium Properties in Québec's James Bay region (**Figure 1**). Field crews have mobilized and are conducting mapping, prospecting, and sampling at recent pegmatite discoveries to refine drill target areas for the Company’s upcoming drill campaign in James Bay.

Highlights

Aggressive, Multi-stage Exploration Program Underway. Norris Lithium field crews are systematically evaluating each property, including the Highway Property, where previously unmapped pegmatites were identified.

Drilling Planned for Phase 2. Drilling at high-priority pegmatite targets to begin in Fall 2023. Permitting for this phase is underway.

Norris Lithium Properties

Norris Lithium holds the Highway and Bus Lithium Properties in the James Bay region of Quebec. The properties cover a combined 4,498 ha overlying prospective greenstone within the same belt as Patriot Battery Metals’ Corvette Lithium Project. The Corvette Project has recently announced a resource of 109.2 Mt at 1.45% Li_2O^1 . Preliminary exploration activity has identified pegmatite outcrop (**Figure 2**) on the Highway Property, and field crews are conducting thorough mapping prospecting and sampling to identify anomalous pegmatite trends.

The Company also announces that, further to its news release of August 10, 2023, it has closed the transaction whereby it acquired a 100% interest in the Alice lithium property located in the Red Lake Mining Division of Northern Ontario. The Company paid \$100,000 and issued 1,000,000 common shares to the vendor. The Alice Property is subject to a 2% net smelter returns royalty in favor of the vendor, one-half of which can be purchased by the Company at any time for a cash payment of \$1,000,000.
